

CSA Price Sheet 2025

*CSA membership will get you locked in to these prices for the entire 20 weeks of the program for the year 2025. By becoming a member, you may also continue to use these prices on all items available after the completion of the 20 week CSA program period. So even when the 20 weeks you sign up for are done, you can still shop with member prices at our farm stand until the end of the year. After December 31st, 2025, you must pay the prices listed in the farm stand.

*These prices are only a guide to let you know the value of the items you choose to take each week. Once you sign up and pay for membership in full, you do not have to pay anymore unless you reach the total value of your share before the end of the program and decide that you would like to have more. Then you must pay as you go but you still are locked in to the prices listed here.

*Please note that prices listed on this sheet can go down but will never go up.
